A MESSAGE FROM YOUR MAYOR

For several weeks prior to May 17th 2009, our community was the subject of many print and radio reports, letting the region know that Canal Fulton would be the starting point of a journey. This journey would be what many Vietnam era Veterans have been waiting for over forty years. The City hosted the short trip north to Clinton, Ohio for the unveiling of the Ohio Vietnam Memorial black granite wall that has carved upon its face the names of 3,095 Ohio Veterans that paid the ultimate price in Vietnam.

At 12 o’clock noon, I had the honor of leading a strong contingency of over 800 Veterans and friends from St. Helena Heritage Park to the memorial park. On the back of the motorcycle sat my son and in the rear view mirror, reflected the image of warriors past, which struck me in a profound way. Both my son and the many veterans represented to me, the past and future, many with a past that needed to be settled by this memorial and a future still to come.

Upon our arrival, I could see the statue representing the Gold Star Mothers, as she stands upon her pedestal facing in quiet guard the many names reflecting back. The strong bond between them striking and the emotions invoked, so heartbreaking. As we parked and began our walk to the stage where many noted speakers would present awards and memories, we walked by the black marble bench that rests in the number one position beside the Gold Star Mother. On its face is the city seal and a poem called the Memorial. It set the tone for all those that entered the wall area as it was donated on behalf of this community, to show for all, our City’s strong pride for the many that have served.

As my son and I stood watching the various ceremonies unfold and the tributes issued to so many, it was difficult not to feel overwhelmed by the dignity and resolve shown by the families of the fallen and the friends that made it home. This event captured the attention of the state and the hearts of those in attendance; and I ask that you take the short trip to the Village of Clinton to see this magnificent park.

In the years to come, I have offered the organizers of this memorial strong support from my administration as we attempt to make this event bigger and stronger every year. We have an obligation to remember, LEST WE FORGET.
The Canal Fulton Police Department frequently recovers lost or stolen bicycles. Most are found by citizens throughout the City and turned over to the Police. Due to limited storage space, we would like to either return these bicycles to their original owners or donate them to local charity organizations that provide bikes to needy families. Below is a brief description of the 46 unclaimed bikes currently in our possession:

If you had a bike lost or stolen in the past 8 years that matches the description above, please contact our Records Manager at 330-854-2926. In order for us to release a bike, the individual claiming ownership must provide at least one of the following forms of proof of ownership: serial number, sales receipt, valid theft report from a law enforcement agency.

The Canal Fulton Fire Department is a proud partner in the Aluminum Cans for Burned Children Program. Captain Glen Boyd serves as the department’s representative on the Aluminum Cans for Burned Children Board.

Aluminum Cans for Burned Children (ACBC) raises money to help burn survivors and their families by funding educational and support programs, and paying for non-medical items or services not covered by insurance. These include special protective clothing that helps skin heal, bicycles that help children exercise burned arms or legs, transportation to outpatient treatment for needy families and more. ACBC also sponsors annual social events for child and adult burn survivors, as well as training and support for firefighters and educational programs.

PROGRAMS SUPPORTED BY ACBC

**Burn Survivors:** A resource and support group for any burn survivor. The group meets monthly to exchange ideas, share feelings and acquire new information to help each participant cope and resolve day-to-day problems and improve the quality of daily living. The Burn Survivors Group is directed by professional staff from Akron Children’s Hospital's Burn Center.

**Juvenile Firestoppers Program:** An educational program for children ages 3-17 who have engaged in some form of fire-setting activity. Taught by registered nurses from the Burn Center at Children’s Hospital and local firefighters, the program teaches children that matches and lighters are tools, not toys.

**Paramedical Make-Up Training:** Provided to burn patients to cover burn scars. ACBC supplies the special make-up to patients and has sponsored training for the Burn Center staff.

**Fire Safety Fund:** Grants money to area fire departments to fund educational programs. It has helped several area departments purchase fire safety houses to teach children what to do in case of a fire.

**ACBC Burn Camp:** An annual summer camp for young burn survivors to enjoy fun activities while the staff looks after their individual safety and medical needs. Camp activities include horseback riding and Fire Truck Day, when fire departments from the area bring their trucks to camp.

**Adult Burn Retreat:** An annual weekend retreat for members of the Burn Survivors Group and guests.

**Denver Burn Camp:** A national burn camp for children. Each year ACBC offers sponsorships for several children to attend. The camp offers enjoyment while meeting psychological needs and teaching educational values.

**Annual Christmas Party:** An opportunity for patients, nurses, firefighters and supporters of ACBC to come together to share in the holiday spirit. Firefighters buy and wrap gifts, which are paid for by ACBC, to give to the children.

Aluminum cans can be dropped off at the Canal Fulton Fire Station located at 1165 Locust Street.
For another year, the St Helena III will run out of the Port of Canal Fulton. Through the collaboration of the Canal Fulton Heritage Society, Stark Parks, and the City of Canal Fulton, plus a grant from the Ohio and Erie Canalway Association, repairs were made to the canal boat and the canal was cleared of debris. The canal was made passable for the St. Helena III even though it still needs to be dredged. Even Sam, our nineteen year old Percheron draft horse, may work yet again this year. He has started out this season with Dan, his new partner from last year, showing no sign of wanting to retire just yet. Even so, a new horse named Prince has been purchased by the Heritage Society. He is very gentle, like Shorty was, and is already working well with Sam and Dan. Please view the insert to get the dates and times that the St Helena III will run as well as a schedule for the Special Event Cruises. These tend to fill up quickly so get your reservations in early. If the Wine & Cheese Cruise is as successful as in past years, a second trip may be scheduled later in the summer. Check with the Canal Fulton Canalway Center or the City website for updates.

We are one step closer to securing grant funding to raise High Street above the flood stage and widen Erie Avenue in front of the Northwest Local School Campus. The City of Canal Fulton has received a Community Development Block Grant towards our local share of the OPWC grant for the High Street portion of this project. Guardrail along the canal will also be a part of this project.

The City of Canal Fulton has received an award for economic stimulus funds to extend a sanitary sewer line up Marshallville Rd partway to Route 21. We currently have one office building planned in that area and having the sewer there will encourage other businesses to locate in our community.

We also have placed the full depth asphalt paving of Locust Street on a grant schedule for potential future funding. If things go as planned, we will pave Route 93 and extend sanitary sewer down Lever Road and up Marshallville Road in 2009. We will raise High Street above the flood stage, add guardrail along the canal, and add turning lanes on Erie Avenue in front of the Northwest Local Schools Campus in 2010. We will apply full depth asphalt on most of Locust Street in 2011. None of these projects would be possible without the passage of the income tax increase in 2007.

Speaking of taxes, I noticed that my property taxes dropped significantly this year. This was due to Mayor John Grogan and City Council’s pledge to cancel 2 mills of property taxes after passage of the income tax issue. The formation of Milan Township caused another 0.6 mill to come off the City of Canal Fulton tax roles. Be sure to thank them next time you see them.

The Canal Fulton Community Plan Committee with the help of the Stark County Regional Planning Commission is continuing with development of our Community Plan. They recently met with City Council’s Economic Development Committee. An economic development plan will be a part of the overall Community Plan which should be completed this winter. The Canal Fulton Community Plan Committee meets the second Monday of each month in our Council Chambers at 7:00PM. These meetings are open to the public.

PUBLIC UTILITIES, Daniel Mayberry

Vehicle & Garage

Use a commercial car wash or wash your car on a lawn or other unpaved surface to minimize the amount of dirty, soapy water flowing into the storm drain and eventually into your local streams and rivers.

Check your car, boat, motorcycle, and other machinery and equipment for leaks and spills. Make repairs as soon as possible. Clean up spilled fluids with an absorbent material like kitty litter or sand, and don’t rinse the spills into a nearby storm drain. Remember to properly dispose of the absorbent material.

Recycle used oil and other automotive fluids at participating services stations. Don’t dump these chemicals down the storm drain or dispose of them in your trash.

Lawn and Garden

Use pesticides and fertilizers sparingly. When use is necessary, use these chemicals in the recommended amounts. Avoid application if the forecast calls for rain; otherwise, chemicals will be washed into your local stream.

Select native plants and grasses that are drought and pest resistant. Native plants require less water, fertilizer and pesticides.

Sweep up yard debris rather than hosing down areas. Compost or recycle yard waste when possible.

Don’t overwater your lawn. Water during the cool times of the day, and don’t let water run off into the storm drain.

With the coming of spring and summer the Zoning Department is receiving inquires and complaints concerning the placement of real estate and yard/garage sale signs.

REAL ESTATE SIGNS

One unlighted real estate, or real estate auction, sign not exceeding six square feet in area pertaining only to the sale, lease or rent of the particular building, property or premises upon which displayed. Off premise, directional “open house” signs pertaining to sale, lease or rent of a property may be posted if the following conditions are met:

A. Signs are placed on private property or right of way on private property with the permission of owners on whose properties the signs are being placed.
B. Signs are posted no sooner than forty-eight hours prior to open houses and are taken down immediately after open house concludes.
C. No City control sign bracket is available for that area.
Posting of real estate signs on utility poles is prohibited.

GARAGE/YARD SALE SIGNS

Residents posting signs in conjunction with a “garage” sale (which term shall include yard sale, porch sale, or chattel auction, may post signs on the property where the sale or auction is taking place. Off premise directional signs pertaining to the sale may be posted if the following conditions are met:

A. Signs are placed on private property with the permission of owners on whose property the signs are posted.
B. Signs are posted no sooner than twenty-four hours immediately after conclusion of sales.
Posting of garage sale signs on utility poles is prohibited.

Residents posting signs in conjunction with a “garage” sale (which term shall include yard sale, porch sale, or chattel auction, may post signs on the property where the sale or auction is taking place.

Off premise directional signs pertaining to the sale may be posted if the following conditions are met.
A. Signs are placed on private property with the permission of owners on whose property the signs are posted.
B. Signs are posted no sooner than twenty-four hours prior to sales and taken down immediately after conclusion of sales.
Posting of signs on utility poles is prohibited.

Are You Protected

Though not a common event, blockage can occur in your private home sewer lateral or the sanitary sewer main line operated by the City.

In a worse case scenario, if your sewer backs up into your home or business do you have sewer backup coverage included in your property insurance policy? Though it is not typical for this insurance to be included in a conventional policy, it can be added for a cost of approximately $50.00 per year. You should contact your insurance agent to determine your present coverage.

Even if the blockage occurs in the City main line resulting in damage to your property, it may not be the responsibility of the City to pay for that expense. It has been determined by our insurance carrier that only if the City receives constructive notice of a problem in their lines can they be held responsible for backups.
**St. Helena III Canal Boat Rides**

Public Rides:
June 6-Aug 23, Tuesday to Sunday, 1 pm & 2:30 pm
Aug 29-Oct 11, Saturday and Sundays, 1 pm & 2:30 pm
