In addition to this work, he would also like to change the fencing at the park. They would like to change the direction of the basketball courts. The asphalt needs fixed. They are trying to improve this park.

The Park Board decided they don't have the portion to put up for a grant for the Puffenberger Property, so have decided to move forward with improving the Old School Lot.

Mayor Grogan asked if the Board could show Mayor and Council a schematic drawing of the proposed changes for the Old School Lot.

Mr. Fleming stated he had a design for the fence company.

Mr. Fleming gave an explanation of how they were going to lay out the basketball courts and how the asphalt can be corrected. It was stated to not take it out because of a foundation that is under the asphalt. If it is opened, it will cause water to get in and cause more problems.

Att: Mark Cozy – City Manager
Ref: Locust Street Widening & Public Services

Dear Mr. Cozy:

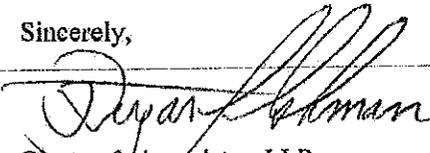

In accordance with my previous phone conversations with Bill Dorman, I have reviewed the status of the previously submitted and approved plans for the above referenced project which were created in 1997 – 1998. It is our understanding that the City of Canal Fulton would like to have the plans (Cooper File Number 97207) revised by Cooper & Associates, LLP in order to present the sanitary sewer extension improvements and then submit to OEPA for acquisition of required permits. Based on my review of the existing plans, Cooper & Associates, LLP recommends that the following services be performed:

1. Perform visual verification of existing conditions as may impact the proposed improvements and if required acquire limited topographic survey to locate any items of substantial deviation from that represented on the existing plans.
2. Replot the plans as required with the updated information.
 - a. Sheet 1 of 6 – Record Plat would not be revised or replatted. If the Record Plat was not recorded, then new title work would be required prior to replotting; however, any revisions to the Record Plat are not included in these services.
 - b. Sheet 2 of 6 – Quantities & Notes would need to be updated for current applicable sanitary notes as required to meet Canal Fulton requirements and as required for approval by OEPA. We would also verify the quantities.
 - c. Sheet 3 & 4 of 6 – Plan & Profile Sheets would be replotted for inclusion of additional items per Item 1 above and for exclusion of other previously designed improvements other than sanitary (storm sewer & waterline).
 - d. Sheet 5 of 6 – Intersection Details would be eliminated.
 - e. Sheet 6 of 6 would be eliminated.
3. Prepare the sanitary PTI application (not including submittal fees) plus submit same with required copies of the improvement plans for review/approval by OEPA.
4. Note that it is anticipated that the limits of impact of the proposed improvements will be less than 1.0 acre therefore no Notice of Intent (NOI) will be filed and no water quality measures will be designed or are included as part of these services. In addition no stormwater management (detention) which was previously designed into this project would be included with the updated improvement plans.

Cooper & Associates, LLP proposes to perform the above defined scope of services, whereas Mark Cozy, acting on behalf of the City of Canal Fulton, agrees to make payment for said services in the amount of \$4,300.00 (Four Thousand Three Hundred Dollars). We propose to complete the improvement plans and make PTI application to Ohio EPA within 2 weeks of the date of authorization to proceed.

We will initiate work based on your verbal authorization; however, please issue a Purchase Order associated with the scope of work. If you have any questions, contact me.
