

CITY OF CANAL FULTON
CITY COUNCIL MEETING AMENDED AGENDA

August 19, 2014

1. **CALL TO ORDER**

Street Sanitary Sewer and Waterline Project adding Street Widening.

2. **PLEDGE OF ALLEGIANCE**

3. **ROLL CALL**

Ordinance 18-14: An Ordinance Amending Ordinance 31-13, and Providing for Changes to Previously Authorized Appropriations.

4. **REPORTS OF STANDING COMMITTEES**

5. **CITIZENS' COMMENTS – AGENDA MATTERS (Five Minutes per Individual – No Yield)**

11. **P.O.s**

P.O. 9997: to DJL Materials and Supply in the amount of \$7,950.00 for Crack Sealer for Road Maintenance

6. **CORRECTING & ADOPTING THE RECORD OF PROCEEDINGS**

P.O. 9995: to S.A. Management of Ohio LLC in the amount of \$3,800.00 for plans for Pole Structure at WWTP Grit and Screening Primary Facility

August 5, 2014

P.O. 9998: to Huntington National Bank in the amount of \$10,206.25 for Bond Interest Payment NW Waterline

7. **REPORTS OF ADMINISTRATIVE OFFICERS**

- o Senior Citizens
- o Community Service - Report
- o Fire Chief - Report
- o Police Chief - Report
- o Engineer/Streets/Public Utilities
- o Finance Director – July Financials
- o City Manager - Report
- o Mayor
 - Part-time Administration Position*
 - Park Board Appointees- Jeff Tabor*
- o Parks & Recreation Board
- o Law Director

P.O. 9999 to Risinger & Associates in the amount of \$105,000.00 for Recreation and Community Center Feasibility Study

12. **BILLS:** \$432,125.10

13. **OLD/NEW/OTHER BUSINESS**

Trick or Treat Date 2014

14. **REPORT OF PRESIDENT PRO TEMPORE**

15. **REPORT OF SPECIAL COMMITTEES**

16. **CITIZENS COMMENTS – Open Discussion (Five Minute Rule)**

8. **THIRD READINGS**

17. **ADJOURNMENT**

TABLED: Resolution 18-14: A Resolution by the Council of the City of Canal Fulton, Ohio to Enter into a Contract with CCI to Develop Construction Plans for the Erie Avenue Storm Sewer Extension Project.

Ordinance 17-14: An Ordinance Amending Ordinance 14-13, Rates Of Pay For Safety Forces Part-Time Employees, And Repealing Any Ordinances In Conflict Therewith.

9. **SECOND READINGS**

10. **FIRST READINGS**

Resolution 19-14: A Resolution by the Council of the City of Canal Fulton, Ohio to enter into an amended Agreement with CTI Engineers, Inc. to provide Professional Engineering Services for the Locust

**CITY OF CANAL FULTON
CITY COUNCIL MEETING MINUTES
August 5, 2014**

CALL TO ORDER

Mayor Harbaugh called the meeting to order at 7:00pm

PLEDGE OF ALLEGIANCE

ROLL CALL

Mayor/Council Members Present: Richard Harbaugh, Linda Zahirsky, Scott Svab, Sean Craney, Danny Losch, and Sue Mayberry.

A motion was made to excuse Nellie Cihon by Linda Zahirsky, second by Scott Svab. All Council Members present voted yes. Motion approved.

Others Present: City Manager Mark Cozy, Council Clerk Teresa Dolan, Service Director Dan Mayberry, Engineer Bill Dorman, Police Chief Doug Swartz, Assistant Fire Chief Ray Green, and Finance Director William Rouse

Others Present: Chell Rossi, Joan Porter, James Deans, Ben Fierman, Earl Minks, Kathy Snyder, Jon Snyder, Keri Lantz, Logan Sundheimer, Loren Sundheimer, Tiffany Craney, Victor Colaianni, Joseph Letta.

REPORTS OF STANDING COMMITTEES

Linda Zahirsky reported that the Personnel/Rules Committee had met prior to the meeting to discuss Ordinance 17-14. Discussed were wages for the Fire Chief and Administrative Assistant. Changes were made to amend Ordinance 17-14. Affective January 1, 2014 the rates will go to 1st year \$11.56, 2nd year \$12.38 and 3rd year \$13.00 per hour. The Fire Chief's wage was set at \$20,000 per year with no additional funds available for call back. Part time officers wages affective August 1, 2014 will be 1st year \$13.85, 2nd year \$14.87, 3rd year \$15.89 per hour.

The ordinance will be amended for the next reading on August 19, 2014.

A motion was made to amend the agenda to include the swearing in of Part-time Police Officer Joseph Letta and a presentation of a plaque to Mrs. Ruth Fellmeth from Mayor Harbaugh by Scott Svab, second by Linda Zahirsky. All Present Council Members voted yes. Motion approved.

Mayor Harbaugh swore in Joseph Letta as a party-time Police Officer.

Mayor Hargbaugh presented a plaque to Mrs. Fellmeth in memoriam of her husband Eugene Fellmeth. The plaque will now be displayed at the Safety Center.

CITIZENS' COMMENTS – AGENDA MATTERS (Five Minutes per Individual – No Yield)

Jim Deans – 426 Heritage
Resolution 17-14

Mr. Deans urged City Council to vote yes for the Resolution. Mr. Deans stated that voting yes would tell businesses that the City wants to grow.

Dr. Mike Schreffler
Superintendent of Northwest Schools
Resolution 17-14

Dr. Schreffler wanted to express his support along with the schools for passage of the resolution that would bring a YMCA to the area.

Les Kempf
Lawrence Township Trustee and YMCA Board Member
Resolution 17-14

Mr. Kempf said he would like Council to consider passage of the Resolution.

Victor Colianni
720 Redwood Drive
Resolution 17-14

Mr. Colianni stated that he is in support of the Resolution. He now has children at the YMCA in Jackson and would like the YMCA to be here in Canal Fulton.

**CITY OF CANAL FULTON
CITY COUNCIL MEETING MINUTES
August 5, 2014**

Charles Myers -- 440 Laden
Resolution 17-14

Mr. Myers stated he was for the Resolution and for the YMCA. This holds great investment value.

Keri Lantz
Canal Fulton Employee and YMCA Board Member.
Resolution 17-14

Mrs. Lantz is for the Resolution. She sees the future for her kids and the community with the YMCA.

CORRECTING & ADOPTING THE RECORD OF PROCEEDINGS

July 15, 2014

A motion was made to approve the July 15, 2014 meeting minutes by Linda Zahirsky, second by Scott Svab.

Mrs. Mayberry said she had spoken to the Clerk in regards to clarification on page 7. Mrs. Dolan said she had changed it and it was read to Mrs. Mayberry.

All Council Members present voted yes. Motion approved.

REPORTS OF ADMINISTRATIVE OFFICERS

Senior Citizens – Kathy Snyder was in attendance and reported on events that the Senior Center would be having in the near future. She said that the Mayor's Brunch was well attended. Mrs. Snyder also thanked John Murphy and his summer workers for the job well done of cleaning up and landscaping around the Center.

Community Service - No Report

Fire Chief – Fire Chief Ray Durkee stated that a grant they had applied for was denied. There were two submissions, with one being similar to last year, so he will be looking into that.

The department is going through protocol testing right now. Medics and EMTs have to do this. Chief Durkee commended Chell Rossi on the Bicentennial Celebration.

Chief Green had reported on the ISO grading the fire department. Chief Durkee said they do hope to improve from the existing rate of six to a three. ISO has restructured their rating schedule. The schedule is comprised of fifty percent of the fire department rating and forty percent of the water department and ten percent for dispatch. One of the things that they have commented on was looking to see if there was a three story training tower, and they gave us credit for the two stories for the training facility.

Police Chief – Chief Doug Swartz reported on Bishop. He was called to a resident's house for a break in. The owners went outside and witnessed a pool of blood on concrete. Bishop was able to track on concrete to a quarter mile away into a goldfish pond was. The K9 handler, Josh Barabasch, thought it was a mistake and maybe the dog was thirsty. The owners came out and said there was a drunken lady swimming in the pond. She took off running. So Bishop was able to track a quarter of a mile suspect. This was amazing. Bishop was just recertified. His progress is stellar and an asset to the community. Later the suspect was found at a party intoxicated. Her foot was cut bad, and she was just trying to get in the wrong house. Nothing malicious.

Chief Swartz stated that when he thinks of the YMCA, health and wellness is one of the primary goals. As a law enforcement person, he looks at it as juveniles staying out of trouble. He is in favor of it and wanted to commend all who have worked on the project.

Chief Swartz also commended Chell Rossi on the best fireworks he has seen. It was amazing how many people came down for the parade and fireworks.

Engineer/Streets/Public Utilities – Engineer Bill Dorman stated that he was a product of the YMCA. His father worked for the Massillon YMCA as the health club director. One of his favorite members was Judge Fellmeth.

Mr. Dorman said the office is working on the Locust/Portage Water and Sewer Design Project.

The Locust/Cherry Intersection will hold a public involvement meeting on August 20, 2014 at the Senior Center. A letter will be going out to involve all interested parties. They are also looking into some widening of Locust on the North Side. A decision has not been made formally on this yet.

CITY OF CANAL FULTON
CITY COUNCIL MEETING MINUTES
August 5, 2014

The Wooster Street Storm Sewer project is complete.

Mr. Dorman is working with Administration on the OPWC application due in September.

Scott Svab asked how far along was the sewer improvement on the east side of Locust Street. Mr. Dorman said about half way. Mr. Svab asked if it would go out for bids this fall. Mr. Dorman stated that he was not sure what the timing is that no one had indicated when they wanted to go out for bids. It would be ready if we do not add to it with the widening project.

Utilities Director Dan Mayberry stated that the media removal approved by Council for the 2014 budget at the Water Treatment plant began on Monday. The contractor is from Illinois and they expect those media to be installed and completed tomorrow and after that, it will be replaced and the plant will be back online, barring no complications.

The 2014 Chip and Seal program is complete. No complaints have been received and he believes the public is pleased with the project.

Mr. Mayberry stated that he did have a cost of \$3,800.00 for design engineering for a pole structure to cover the grit and screening primary facility at the Waste Water Treatment Plant. The engineer/surveyor is William McCoullough. Mr. McCoullough agreed that rebuilding the pole building utilizing existing poles that are in place and erect would be sufficient. He wants to use materials that will resist the caustic fumes created by the hydrogen sulfide gas. Mr. McCoullough is suggesting that we try to locate the building heater outside of the facility. Also to relocate the exhaust fan more towards the head works and possibly adding a fume hood. Mr. Mayberry stated that he would like a voice motion by Council to authorize the Finance Director to prepare a purchase order to William McCoullough for the design of the facility.

A motion was made to have Finance Director William Rouse prepare a purchase order in the amount of \$3,800.00 to William McCoullough, design engineer, to design the grit building by Linda Zahirsky, second by Sue Mayberry. All present Council Members voted yes. Motion approved.

Mrs. Mayberry said in spite of what was heard on the news in regards to the situation in Toledo with the water, while we do not get our water from a lake, she knows that every time she turns her tap on at home, that the water she is drinking is safe and she owes that to the Utility Superintendent and all the people in the utilities that tests. A superb job that our utility crew does. Mrs. Mayberry thanked George Lukinac and his crew for making sure that what we drink is safe. Mr. Mayberry stated that he would pass that along to the men.

Linda Zahirsky state that she wanted to point out that on Stonewood Street near the corner of 93 there is a great big chunk of concrete out of the road. Mr. Mayberry said he would look into it.

Mayor Harbaugh stated that he had one complaint on the street resurfacing. The Road Superintendent said he did not have enough money to cover enough areal. Mr. Mayberry said that counts.

Finance Director - Finance Director William Rouse said the tax budget was filed August 4, 2014. Mr. Rouse stated that he and Mark Cozy were working with department heads on the budget planning for 2015. He is hoping to have a good working model soon and would like to request a Finance Committee meeting to review.

A motion as made to have a finance committee meeting to review the 2015 budget and all other businesses deemed necessary with the Finance Committee on September 23, 2014 at 6:00pm by Scott Svab, second by Linda Zahirsky. All present Council Members voted yes. Motion approved.

Sue Mayberry asked in regards to Resolution 17-14 if the \$105,000.00 was not budgeted. Mr. Rouse stated that was correct. Mrs. Mayberry asked if that would come out of our general fund. Mr. Rouse stated that was correct. Mrs. Mayberry asked how that would affect our General Fund and budget. Mr. Rouse stated that it was not budgeted. We carried over roughly four to five hundred thousand over from 2013. What will happen is if 17-14 passes, at the next meeting he would have to ask for a supplemental appropriation for the entire amount which would be paid for out of the carryover from 2013. Mr. Svab asked if there were some capital projects that we discussed that were not going to be done this year that would free up that funding. Mr. Rouse stated that we did budget for a leaf vac replacement, but some of that could be consumed by Resolution 18-14 if that were to pass as well. Mr. Rouse said his guess would there would be some monies left in the capital budget that could go towards the study, but the bulk of it would be paid for from the carryover. Mr. Craney said the leaf vac was \$70,000 and that would be seventy percent. Mr. Rouse said there were other things that would chew up some of that money.

CITY OF CANAL FULTON
CITY COUNCIL MEETING MINUTES
August 5, 2014

Mrs. Mayberry said just to tag on to that, it was a concern of hers, there is the million dollar intersection project. We have to resubmit a grant for the engineering, correct. Mr. Cozy stated for the local match. Mrs. Mayberry stated that was \$300,000 and we may not get that. Mr. Cozy said that was possible. Mrs. Mayberry asked when the submission would take place. Mr. Cozy stated around September 14, 2014. We should know in mid-November if we get the grant or not.

Mr. Svab stated he believed that the \$300,000 council had passed a resolution into bonding that out over ten years to pay for the actual cost of the intersection, not through cash, but a least a ten year bond to soften up the cash flow for these types of projects. Mr. Cozy stated that we had not needed to do that at this point.

City Manager – City Manager Mark Cozy reported that his submitted report included favorable news on the Ohio Canal Society. They will be granting us \$10,000.00 for the development of the construction of the St. Helena II structure. He has also been invited to apply for the construction grant for that project. The state would like to keep this project moving due to its historically significant nature. Mr. Cozy said he would apply with Council's approval.

A motion was made to proceed with the grant application to protect the canal boat by Sue Mayberry, second by Scott Svab.

Danny Losch asked if there were any actual drawing on how this would look. Mr. Cozy stated that there were some. The ad hoc committee would need to approve the aesthetics before finalizing the plans.

All present Council members voted yes. Motion approved.

Mr. Cozy stated that we have an agreement with the Regional Planning Commission to revise our Zoning book. We have been trying to schedule a meeting with Mary Lee Sponseller. Our agreement was scheduled to end in July. Mr. Cozy would like to extend the agreement to October in order to schedule all parties involved to attend a meeting.

A motion was made to extend the agreement with Stark Regional Planning Commission and Mary Lee Sponseller until October by Sean Craney, second by Linda Zahirsky.

Mrs. Mayberry asked if the cost was the same. Mr. Cozy stated yes.

All present Council members voted yes. Motion approved.

Mr. Cozy that that our playground is in bad shape and beyond repair. We have an opportunity to apply for a Natureworks grant to replace the playground. It is a 75% matching grant, so we would kick in 25%, and the state would kick in 75% of the total cost. The design would be a boat. A modest playground would be \$55,000 with a surface that would not wash away with a flood.

A motion was made to apply for a Natureworks Grant for the Playground by Sean Craney, second by Sue Mayberry. All present Council Members voted yes. Motion approved.

Mark Cozy asked that Resolution 18-14 be tabled. In conversation with Mayor Harbaugh and Mr. Mayberry, they would like to look at the project to see if there is something that can be done internally along with some input from local contractors. Mr. Cozy will report back in two weeks on this.

Mr. Cozy stated that he encouraged Council to approve the study for the YMCA. There are a lot of questions that the study could answer. In a nutshell it will identify who the partners would be and bring those partners together. A conceptual as well as operational plan would be included with the study. It is an investment in our selves. This is one of the reasons he is here and working for the City. He believes strongly in the project and developing it for the future.

Mayor – No Report

Parks & Recreation Board – Mr. Minks stated that he had nothing at this time. Mr. Cozy stated that new Park Board members needed appointed. Mr. Minks stated that Jeff Tobar was a school teacher so he would be approved by the School Board. Mr. Minks stated he would get some contact information for Mr. Tobar.

Law Director – No Report.

Mayor Harbaugh said that the plaque honoring Mr. Eugene Fellmeth was great.

Mr. Craney asked Mr. Fellmeth what his opinion was on the YMCA. Mr. Fellmeth stated he was supposed to be impartial. Mr. Fellmeth said he was in favor of it.

THIRD READINGS

CITY OF CANAL FULTON
CITY COUNCIL MEETING MINUTES
August 5, 2014

Resolution 17-14: A Resolution by the Council of the City of Canal Fulton, Ohio to enter into an agreement with Risinger & Associates, Inc. for a Feasibility Study to Develop a Recreation and Community Center.

A motion was made to approve Resolution 17-14 by Sean Craney, second by Scott Svab.

Scott Svab stated that he strongly supports this. There have been numerous public meetings for everyone to express their concerns. This has been a long process. It was snowing when we went to the Wadsworth facility. This is going to be a game changer to the City. Opportunities in economic development as well as recreational opportunities are here. He is ready to make a vote on it tonight rather than table it. One person that was in favor of this is not here tonight. He hopes that Council will be able to pass it with a positive vote.

Danny Losch stated that this is important at this time. It is time sensitive. He is reminded of the plaque that was given with Mr. Fellmeth on it. This man created infrastructures for this City that we stand on today. Because of the work of these individuals, we have something to work for. He has always strongly supported and believes that it is so important for the current elected officials to create the possibilities and put them into the future and live in to them. He said he knows that it is hard to grasp, but this is a method of doing it. This is more than a study. He thinks it is going to bring movers and shakers to contribute monies to the future. He hopes that he gets participation from his colleagues on this.

Sean Craney said he wanted to reiterate. He said he was sure people were getting tired of seeing his phone number, he has called many to talk to and ask questions about this. This is the biggest thing in his opinion on return of investment. The partners that this study will bring in will bring a dividend from here to longer than he is going to be in this town. He encourages and hopes that we can get this passed tonight. He said he knew Nellie Cihon was in support and it was unfortunate that she could not be here tonight. Hopefully they will take that into account and we can get this passed tonight. Mrs. Zahirsky stated they could only count the members that were here.

Sue Mayberry stated that she had a different spin on all of this. She is concerned with the finances. She would love to see the property developed, but what scares her is that whatever goes in there, if it is going to be as big as what they are saying, what are they going to do about the traffic on Locust Street. Right now to get out of anyplace, you can't turn left any more, you have to turn right. It is crazy. There is no place to go. We are going to be working on the intersection expansion and widening. That is going to help us to a point, but it is not going to solve our traffic problem. Once it is there, if it happens, then what. Where do we put a road. At one point, back in 2011, the Puffenberger property was pointed out to being the best centrally located place for a YMCA. It was reiterated in our four square study. Also in that time frame, there was a potential on Elm Ridge bringing it down by a gymnasium. At some time can be expanded out to Strausser and create a new exit and entrance there. Why the YMCA dissipated from that realm, she did not know. Mrs. Mayberry is concerned about the traffic. We have done numerous studies back from 2006. We have gotten so close and then it just died. We spent money on studies. Our community plan that Mr. Craney was on, a lot of the information that this Rising study will give us, we already have got. We have had it already in our grasp.

Mr. Coliainni said she needed to correct Mrs. Mayberry. He was on that committee and she was not correct.

Mrs. Mayberry asked if she could please speak. He said what she was saying was not correct. Mr. Losch said to please let Mrs. Mayberry finish. Mrs. Mayberry said she had read the study and the information in that study and the information in other studies is there. ABC out of the Risinger, you can find that information. She would love that the community could support something like this, but she is concerned about the finances. She is concerned that the City could support it. The four square market study, which we got this year, it just got put aside. That was a \$24,000 study. Now we only paid \$6,000 or \$7,000 for that. She said the township paid a portion. Why was it done if it was not worth it? Mrs. Mayberry said we have spent a lot of money spinning our wheels, we have been given good information that has never been brought to fruition. She does not know why. She does not doubt that Mr. Risinger is an expert in what he does. She is nervous about the finances. We have got a piece of land that we paid a million dollars for. The senior center will be gone as we know it. She just hopes that we know what we are doing and it does not cause more problems down the road. Traffic wise is what she is concerned about.

CITY OF CANAL FULTON
CITY COUNCIL MEETING MINUTES
August 5, 2014

Linda Zahirsky said it was her turn. She appreciated the comments that were brought forth tonight. She said that she knew that Sean Craney worked diligently to get everyone out here this evening. She appreciated that. She said that she does have some of the same concerns as Mrs. Mayberry. Mrs. Zahirsky said she wished that Les Kemp was bringing money to the party and Dr. Shreffler also. She said that she felt a lot of people did not understand the presentation that was given to us by Ben Fierman. This is just not a little YMCA we are talking about. He is talking about something similar to what is in Wadsworth. It is more like \$16-17 million dollars. That is Mrs. Mayberry's concern and her concern too. The \$5-7 million dollar range. That is probably closer to a little YMCA than what Sean Craney and Scott Svab are thinking about. They are thinking more along the lines of Wadsworth. She said she seemed to have the same feeling a couple of years ago when there was an issue about casinos. She felt that this was on her again.

Mr. Fellmeth said they could table this until they have a full council here.

Mr. Craney stated the Wadsworth YMCA, they all agreed, is massive. It also includes a school. The Canton YMCA is more of a comparison of the size we are going to have. We did pay a million dollars for a piece of property that basically we just pay to mow. This gives us an opportunity, a vehicle, to take care of that property and provide a park that the City needs and the City wants. The City should have.

Mrs. Zahirsky stated that there was a master plan out there for the park. We have not been able to get the support of the voters to support a park levy.

Mr. Craney said we would be bringing in jobs to the City. If we do bring in a medical facility, there would be doctors. Just a generalization, he thought they made pretty good money. He would like to see the tax money come to us.

Mrs. Zahirsky said they were here, they were on Cherry Street. Mr. Craney said that the doctor's office was in support of this project. Mr. Craney stated that as Mrs. Mayberry said these studies, the four square study was a preamble. A lot of these studies state what we would love to do. Ben Fierman is going to deliver the partners. That is why he wants this. Mr. Fierman will do this and deliver it. This will provide and attract something for literally everyone in this town. He does not see how this could be a hindrance and why he would want to hesitate on developing the City for the residents. \$100,000 dollars is a lot of money. Mr. Craney said he felt that if Mr. Rouse thought we could not do this, he would have stated that. He asked Mr. Rouse if he thought we could do this. Mr. Rouse stated that he felt similar to Mr. Fellmeth. His job was to be impartial. There is money there in the carryover to do. This was not budgeted, but there is sufficient carryover to do it if Council was to decide to move on it. They did budget for a leaf vac replacement and it did not look like they were going to move on it this year. There has been several projects discussed that would chew up some of that money but not all. There are other capital projects that were budgeted that Council could choose to use that funding for. There is a police cruiser that has not been purchased yet as well as some other things like that. He said to Mr. Craney's point, there was some flexibility that it could happen if Council deemed it a priority.

Mr. Svab stated that this ways that people are trying to find not to do this. As a point of clarification to the law director, we have two options. Table this and wait until full council, or call the question. If it fails we can introduce it at the next meeting. Mr. Fellmeth said no, unless you have a reversal of someone else's vote. You can't call at the next meeting unless there is a reversal.

Mr. Cozy said he would like to bring up the four square study. The study had everything to do with where the YMCA would work the best. The Puffenberger property was the ideal location. That study was all about if we could sustain and support the YMCA. Mrs. Mayberry stated without a pool. Mr. Cozy said no. Mrs. Mayberry stated that the four square study was that we could not sustain a pool. Mr. Craney stated, no they just recommendation was two phases. Mrs. Mayberry said yes, the first phase was no pool because we couldn't sustain it. Mr. Craney said no, that's the old YMCA method. Mr. Cozy said that is why we need to take the next step. If we do not take the next step, basically we have thrown our money away on the four square study. Basically all we are doing is taking then next step because of the four square study and what it has shown us. The community can sustain a YMCA. It is twice the national average in interest. The community gave input on what they want to see in a YMCA, and basically the four square study made the recommendation to build in phases, because that is the typical YMCA model. The next step is: are we a typical YMCA model. We will not know that until we take the next step. If the Four Square study would have shown the opposite, then we wouldn't be talking

CITY OF CANAL FULTON
CITY COUNCIL MEETING MINUTES
August 5, 2014

about building a YMCA. But the study says yes, the interest is here. Mr. Cozy stated that Council could support it. You have twice the national average of interest to support a YMCA. It is obvious to take the next step. Listen to our constituents. Mr. Cozy stated that everywhere he goes downtown, he is asked when are we going to get the Y, when is the Y going to be built. He gets asked that question a lot. The next thing is hotel. Mrs. Mayberry said they did not understand. Of course they do. Of course they want a Y, and nobody in this room would not like to see that. Mrs. Mayberry said the money for her right now is a concern, what are we going to do about the traffic on our streets.

Mr. Craney stated that two of the main roads in and out of town. Mr. Cozy stated we could have focus groups to decide where the main entrance would be. It could be Erie, or it could be Locust. That is the next step. Mr. Cozy stated that we were making assumptions on what it was going to look like when we really don't know. Mrs. Mayberry said this was the first step, \$105,000, four and a half month feasibility services, and then everything after the site community and marketing understanding, collaboration and fund development, strategic programming, preschematic strategic master facility planning. After that four month study everything after that is going to be, we are going to incur hourly rates for everything after that. It is going to be more money. Mr. Losch said if we choose to move in that direction. Mrs. Mayberry asked why couldn't the YMCA offer in kind services and drop the \$105,000.00. Mr. Craney stated the Y is giving us \$5,000.00. Mrs. Mayberry said she was talking about some of the services could possibly drop the cost of this study. Why couldn't with this \$105,000.00 we find out who a real committed partner is going to be. Mrs. Mayberry said there were some things she would like to know. Mr. Craney said that's what the service is going to deliver. Mrs. Mayberry said that is not going to be there for the \$105,000.00, that is going to come after. Mr. Craney stated yes that is. Ben Fierman said he was afraid to open his mouth, but. Mrs. Mayberry said open his mouth; go right ahead, because this happened so fast. Mr. Svab said seven months; you have had opportunity for seven months. Mrs. Mayberry said she had been studying. Mrs. Mayberry stated she does not make up her mind like that.

Mr. Fierman stated that he would like to clear up several points. In terms of the four square study, Mr. Cozy summarized this aptly. What is not in mention is the four square study showed that as a valuable site for a YMCA and size of the YMCA on a multi limited assumption. The assumption is the survey was conducted asking people in your community if we are going to build a Y, would you go there. What would you do there, and where would you like it to be. The study revealed a size and scope for a small YMCA. The limiting factor in that was that the questions were not asked to your community that if there was a YMCA that incorporated a senior center and a health care provider, and higher education, how many more people might go there. From our experiences in Northeast Ohio, Lake is designing their third expansion in 11 years. Because they twice underestimated the value to integrate a wellness campus that represents the community. Mr. Fierman said the other think he wanted to correct is that we refer to this proposal as a feasibility study and in fact feasibility is just the beginning of the services they would be contracted to provide. At the end of this phase, you would have signed letters of intent from all of your collaborating partners, indicating the scope and the magnitude of their proposed involvement. Their willingness to participate in a meaningful way including planning meetings, and their willingness to consider contributions in capital expenditures or long term lease commitments that offset the cost of the campus. The price tag on the campus is only once aspect of this. What we deliver at the end of this study is signed letters of intent from your partners, schematic design and site utilization design for the property and potential building, construction budgets, operating budgets, operating plans and integrated plans for all of those partners. At the end of that process, if you choose to move forward, you will be moving forward using revenue and capital from your partners to offset the cost of the project. You will be moving forward as collaborative group of organizations creating a campus owned by the City. People talked about residents from other neighboring communities coming to this facility. The four square study opened everyone's eyes to the practical reality that a YMCA could flourish here. The fact that the City owns the property and can develop the property and retain ownership of it really brings the asset back into possession of the City and elevates its value. Mr. Fierman said they would be delivering signed intent from all of our partners including what their role is intending to be in this process. At the end of the process if the City says we do not have the appetite to do this. Then you will have made an enormously informed decision with all of the information available to you.

Mr. Fierman said if there were more questions; please feel free to ask him.

Mrs. Zahirsky asked to call the question.

CITY OF CANAL FULTON
CITY COUNCIL MEETING MINUTES
August 5, 2014

Vote is as follows: Scott Svab – yes; Danny Losch – yes; Linda Zahirsky – Mrs. Zahirsky said she would vote yes and she wanted to tell why. We may have just pissed away \$100,000 but she suspected we haven't. She said she really hoped we hadn't. She told Mr. Fierman if he delivered on his goods, and he shows us that we have the partners to be able to do this, then her eyes will be opened to possibilities that we can't do alone. The problem is that she looks at is that we can't do it alone. That is why she was going to vote yes; Sean Craney – yes; Sue Mayberry – no. Motion approved.

Mr. Fierman said fourteen years ago he brought the first collaboration of this kind to the board of directors at the health system that had employed him. It is Lake, and Sister Judy who was chairman of the board grabbed him by the lapels of coat. She said so help me, you better make sure this is a success. Mrs. Zahirsky stated she was doing the same thing. Mr. Fierman said two years later he walked out of a similar board meeting and Sister Judy grabbed him by the lapels and said so help me you better figure out how to do a lot more of these. Mr. Fierman thanked the City for the opportunity to bring to our community what's best for it.

Les Kempf thanked the board for passing this.

Ordinance 16-14: An Ordinance Amending the Traffic Code of the Codified Ordinances of the City of Canal Fulton, OH in order to create Regulations Regarding Parking of Vehicles within the City and Adding Chapter 351.17 Entitled Residential Parking Prohibitions and Repealing and Ordinances in Conflict Therewith.

Scott Svab stated that he wanted to have discussion on this. He said that residents spoke to him about a growing problem. It has been on our radar but nothing had ever been done about it. Safety Departments consider that section of road on Summer Evening a safety hazard and nuisance because only one side is allowed to have parking. When larger vehicles are parked in there it limits the scope of the site. Not only that, but reviewing the ordinance with the Law Director, we also found out that other similar circumstance our current laws allow you to park a boat or a camper on the side of the road for unextended amount of time. Mr. Svab said he thought that was wrong. A parking ordinance is in line with the safety and well being of our residents.

Danny Losch stated that the Safety Committee did meet on this in regards to this. It was the opinion of the Street, Police, and Fire Departments that there was a potential hazard. There could be some safety issues and Mr. Losch said he was convinced of that. However, as a chairman he felt they did not need legislation we could have done this with signage. On the other hand, he sees the importance of this ordinance and that it is affective. He will also support this ordinance.

Sean Craney stated that he wanted to support this. He watched Scott Svab do the leg work on this. He does not like being hamstrung by a home owner's association. He is more for the citizen. This is a safety concern that the Police and Fire have addressed and he supports it because of that.

Linda Zahirsky stated that she was not in favor of it. What we have allowed is a neighborhood dispute between two people to change what the rest of Canal Fulton can do. It absolutely boggles her mind that two people that can not get along, that hate each other that much, are now affecting every one else in Canal Fulton. And this is what it really boils down to. This could be taken care of by signage. Our City Manager has the ability to put signs out limiting parking during the day for certain hours if he wishes to. We do not need to affect all of Canal Fulton. Mrs. Zahirsky said she felt they were creating a giant gun at a tiny little problem that goes on between two people. It boggles her mind that they would get to the point where they would consider affecting all the rest of the citizens because those two people cannot get along.

Mark Cozy stated that he did put no parking signs up there and the folks came and petitioned Council and Council voted against that and we pulled them down. He is not sure what else they could do out there. Mrs. Zahirsky stated that he put no parking on both sides. Mr. Cozy said right now there is no parking on one side.

Sue Mayberry stated our Street, Fire and Police Departments support this legislation. She asked if that was correct. Chief Swartz said yes. Chief Durkee and Mr. Mayberry also said yes. Chief Durkee said we needed access for emergency vehicles. Mrs. Mayberry said she had to listen to the people that we entrust as the security of our town. If she second guesses them they do not feel that she trusts them and she has to trust them. She will support this legislation.

CITY OF CANAL FULTON
CITY COUNCIL MEETING MINUTES
August 5, 2014

Mrs. Zahirsky asked the Fire Chief if he could get by with the one side being no parking now. Chief Durkee said he had not viewed that recently, his biggest concern was that he wanted to at least have access to one side. Commercial vehicles make it hard. Chief Swartz said his concern was having little kids and thinking about different scenarios. He pictured a scenario about a child going down the street. He has seen enough kids being hit by cars. They can try to help the speed down the hill with radar, but they can't be there all the time. They go left of center and there is a potential hazard for that situation. Mrs. Zahirsky stated that one specific situation. That is the key point here. Mr. Cozy said it is the same on Dan Street with commercial vehicles parking.

A motion was made to pass Ordinance 16-14 by Scott Svab, second by Danny Losch. Vote was as follows: Sue Mayberry – yes; Sean Craney – yes; Linda Zahirsky – no; Danny Losch – yes; Scott Svab – yes; motion approved.

Resolution 18-14: A Resolution by the Council of the City of Canal Fulton, Ohio to Enter into a Contract with CCI to Develop Construction Plans for the Erie Avenue Storm Sewer Extension Project.

A motion was made to table Resolution 18-14 by Linda Zahirsky, second by Scott Svab. All present Council Members voted yes. Motion approved.

Mr. Fellmeth, said point of reference on 18-14. We have contacted Eric Williams to prepare an affidavit for that particular agreement which was a memorandum that was signed by the property owner. He is making a affidavit that the document was signed January 25, 2008. The same time he signed the petition for the Northwest School annexation.

SECOND READINGS

Ordinance 17-14: An Ordinance Amending Ordinance 14-13, Rates Of Pay For Safety Forces Part-Time Employees, And Repealing Any Ordinances In Conflict Therewith.

A motion was made to amend Ordinance 17-14 changing part time clerical wage for the fire department to 1st year \$11.56, 2nd year \$12.38, 3rd year and beyond \$13.00 per hour. The second change would be the Fire Chief's salary to \$20,000.00 with no additional pay for call back or any additional items. The third change would be the part time police officers with the 1st year being \$13.85, 2nd year \$14.87 and the 3rd year \$15.89 effective 8-1-2014 by Linda Zahirsky, second by Scott Svab. All present Council Members vote yes. Motion approved.

FIRST READINGS

P.O.s

P.O. 9980: to Valley Ford Truck Sales in the amount of \$20,950.00 for purchase of a 2014 Ford F-150

A motion was made to approve P.O. 9980 by Scott Svab, second by Sue Mayberry. All present Council Members vote yes. Motion approved.

P.O. 9974: to Sherwin Williams in the amount of \$3,800.00 for Paint for Water Tank

A motion was made to approve P.O. 9974 by Sean Craney, second by Linda Zahirsky. All present Council Members voted yes. Motion approved.

P.O. 9967: to Windows and More in the amount of \$5,977.00 to Replace the Upstairs Windows at City Hall.

A motion was made to approve P.O. 9967 by Scott Svab, second by Sean Craney. All present Council Members voted yes. Motion approved.

BILLS

OLD/NEW/OTHER BUSINESS - None

REPORT OF PRESIDENT PRO TEMPORE

Scott Svab thanked Rochelle Rossi for all of the work on the Bicentennial. The fireworks were great. Unfortunately the event was rained out. Kathy Snyder did the Mayor's Brunch at the Senior Center. This was a great event with a lot of elected officials from all over the county.

CITY OF CANAL FULTON
CITY COUNCIL MEETING MINUTES
August 5, 2014

Mrs. Mayberry asked if the litter grant went through. Mr. Svab said no we missed it. He wanted to put a dumpster down there for a recycling facility. It was disallowed because of that. They said reapply next year.

REPORT OF SPECIAL COMMITTEES – No reports

CITIZENS COMMENTS – Open Discussion (Five Minute Rule)

Betty Nupton – 2042 Summer Evening Drive

Ms. Nupton voiced her opinion on Summer Evening. She said she was a retired school teacher and she said she didn't want Council to think it was just someone who didn't get along. There are kids in the neighborhood and school busses. When she pulls out of her driveway, she does not know when the vehicle is parked because she cannot see. It's amazing that the quiet little street gets all of the traffic. She does not want to hit a child or dog. She did not want to be responsible for someone getting hurt. She thanked those that voted yes.

Scott Svab said she had voiced that sentiment to him when he spoke to the households. All but two people were for this ordinance. The problem is, other than a safety issue, you don't want to look outside you're your window and see that.

Ms. Nupton said no she did not want to see that or a boat or camper.

Cathy Blunt – 2042 Summer Evening Drive

Ms. Blunt said she was also in agreement with the ordinance. We do not want children getting it. Unfortunately she lived where a two year old on Longwood was killed. The person could not see going around the corner. One person only is one too many. She has no feud against the neighbor. You just can't see around or through it.

Victor Coliainni – 720 Redwood

Mr. Coliainni thanked Council for their vote on the feasibility study. One thing that was brought up in the community plan and the pieces of the puzzle that Risinger brings, we did not have signed letters. Secondly, he sees Trustee Kempf was in attendance. He did not know if Mr. Fierman went to a Trustees meeting to address them. He asked if they were open for a presentation to the Trustees. Les Kempf said they gave money to the first study and they were welcome to come to present. He would promote it.

Don Mauer – 2047 Summer Evening

Mr. Mauer stated that he was not going to say anything. He initiated the whole thing with the parking on Summer Evening with a lot of thought from a lot of neighbors who were concerned and came to him because he came from the Fire Department. He saw a safety issue here in the making. The road is too narrow with increased traffic and the people come down off the hill when the truck was not there. They would immediately get on the other side of the road two hundred feet from the truck and come down the wrong side of the road. He thanked the Council Members for their consideration and vote.

ADJOURNMENT

The meeting was adjourned at 8:45pm.

Minutes Prepared by: _____
Teresa M. Dolan, Clerk

Minutes Approved: _____
Mayor Richard Harbaugh

City Of Canal Fulton Community Service Report June – July 2014

June 2014

- 7 Defendants currently sentenced to community service.
- 42 Hours worked by defendants in June.
- 4 Defendants completing their community service.
- 1 Defendants sent back to court for non-compliance.

July 2014

- 8 Defendants currently sentenced to community service.
- 85 Hours worked by community service workers in July.
- 1 Defendants completing their community service.
- 1 Defendant sent back to court for non-compliance.

Dear Mayor and City Council,

This summer has been a very busy summer! Having the summer works students under my supervision and supervising the court workers we have been able to accomplish a lot of task this summer! After cleaning up from canal days the students were busy painting all the utility poles on Canal St. 40 light poles, 15 hitching post and 8 sign poles in total. The students also helped maintain city properties and were very helpful with all the Bicentennial setup and watering all the downtown flower planters daily. This last week the students put up a 40 foot split rail fence behind the restrooms at Muhlhauser Park, replacing the rotted original fence. It was enjoyable working with the students this summer and I hope I was able to teach them many things and having all the extra hands available to complete task made the work easier.

Respectfully submitted,

John Murphy
Community Service Coordinator

City of Canal Fulton

Director of Finance

155 East Market Street, Suite A
Canal Fulton, Ohio 44614
(330) 854-6761 Fax (330) 854-6260

The following represents a summary of financial highlights from July:

- **July Bank Reconciliation (Page A-1):** With the exception of a few minor corrections to be booked in August, the July revenue and expense activity is balanced.
- **Income Taxes (Pages B-1 & B-2):** As of July 31, the City's year-to-date income tax collections are 1.8 percent higher than 2013, and are on pace to meet budget expectations.
- **Fund Balance Report (Pages C-1 & C-2):** This report shows that the ending unencumbered fund balance at the end of July 2014 for all funds combined (\$2,298,459) is significantly higher than 2013 (\$1,472,006). The biggest difference is due to the City preparing for the Locust-Portage Resurfacing project at this time last year, which caused a temporary deficit in the General Capital Projects Fund in 2013.
- **Revenue Comparison (Page C-3):** The report shows that with exception of the Fire/EMS and Sewer Capital Projects Funds, the revenues in the remaining funds are generally on pace to meet budget expectations. The lower revenues in the Fire/EMS Fund are due to the year-to-date EMS fee collections trending lower than budget expectations. The Fire Chief is currently researching this issue. The lower revenue in the Sewer Capital Fund is due to not yet receiving the County's share of certain capital project costs.
- **Budget Status Reports (Pages C-4 & C-5):** The report shows that with the exception of Parks and Recreation Department (General Fund) and the St. Helena II Fund, the City's year-to-date payroll costs are in line with budget expectations. The higher payroll expenses in both funds are due to expanded staffing levels during the summer months. These costs should level off during the autumn season.

The report also shows that the non-payroll costs are in line with budget expectations for all funds/departments except the Income Tax Department and Water Department. The higher operating expenses in the Income Tax Department are due to processing refunds and collecting delinquencies. The higher operating costs in the Water Department are due to the water line break on Locust Street. The operating costs in both areas should continue to stabilize as the year progresses.

- **July Bills:** The total bills reported for July equal \$432,125.10. The expenses were slightly higher than usual due to processing three payrolls in July.

From the Office of the City Manager

City Manager's Report for August 19, 2014

1. Tuscarawas River Buried Valley Combined Aquifer: A communication from the TRBVCA we received in July is attached along with the Stark County Commissioners' letter of support drafted last year. Please review the attached letter. I think that it's important for the City to also send a letter of support. This aquifer is our sole water source and attaining the Sole Source Aquifer designation will enable the USEPA to empower the City to take necessary steps to protect our water supply. I will be asking for a voice motion to approve a letter of support.

2. Locust-Cherry Intersection Project: A public involvement meeting has been scheduled for 5:00PM at the Senior Center on August 20th. A press release has been sent. This is a federal requirement due to the adjacent park that would be impacted by the project.

3. Akron Canton Airport (CAK) Master Plan: I attended a public officials meeting at the airport where they revealed some preliminary data from their Master Plan. CAK's total economic impact in our region is now over \$500 million per year. Something of note, their major carrier, Southwest Airlines is not on any of the travel websites such as Travelocity or Kayak. I've reached out to them and suggested that all the community webpages establish links with CAK to lead people looking to travel to our communities to them and Southwest directly. The CAK Master Plan will be finalized at the end of this year. The last public open house for the Master Plan will be on September 17th.

4. SCRPC Agreement: Mary Lee Sponselor will be attending the August 21st Planning Commission meeting. She will be gathering input that she will apply towards re-writing our zoning code.

Tuscarawas River Buried Valley Watershed Council

TRBVWC

10274 Kaylor Rd. NW
Beach City, OH 44608
330-866-3330

TO: County Commissioners, Mayors and Council Members, Township Trustees

RE: Request for a letter in support of the Tuscarawas River Buried Valley Combined Sole Source Aquifer and update on SSA Petition progress.

DATE: July 17, 2014

The Tuscarawas River Buried Valley Watershed Council (TRBVWC) is requesting a letter supporting the Tuscarawas River Buried Valley Combined Sole Source Aquifer. TRBVWC is a non-profit organization that was formed to petition the Environmental Protection Agency for Sole Source Aquifer status for the combined aquifer in our region. Our communities will benefit from the Sole Source Aquifer designation without any cost to the local governments.

The TRBVWC members are contacting public officials in the Tuscarawas watershed to provide information concerning the Tuscarawas River Buried Valley Combined Sole Source Aquifer and to obtain letters or resolutions in support of the SSA Petition. TRBVWC has received letters of support from many sources including Carroll County, Guernsey County, Portage County, Stark County, Summit County, Akron City, and Canton City. TRBVWC would appreciate your Letter of Support to show the EPA the importance of the Sole Source Aquifer petition.

A Sole Source Aquifer (SSA) designation helps to protect the groundwater and provide for the future water supply. The SSA offers a unique opportunity to increase public awareness on the importance of groundwater protection. The SSA will encourage economic development by promoting the aquifer as an abundant source of clean water. The SSA information available to local governments and the public will assist with planning and zoning for groundwater protection and future development. After the USEPA approves the SSA Petition, all the information concerning the Tuscarawas River Buried Valley Combined Sole Source Aquifer and the mapping Geographic Information Systems (GIS) data layers will be made available to local governments and the general public.

The Sole Source Aquifer will not impede the oil and gas shale development or other future economic development opportunities in the region. Projects in a Sole Source Aquifer funded entirely by state, local, or private concerns are not subject to EPA review.

The proposed Tuscarawas River Buried Valley Combined Sole Source Aquifer encompasses 1,445 square miles and underlies portions of thirteen northeastern Ohio counties. Designation of the proposed sole source aquifer is critical because approximately 692,851 people or about 95% of the residents, businesses, public water systems, and rural homes on private wells rely exclusively on the Tuscarawas River Buried Combined Aquifer System to meet their drinking water demands. The results of the economic analyses by noted environmental consultants indicate that less than one third of our local communities currently supplied by the largest 49 public water systems could feasibly find a switch to an alternative water supply without causing extreme financial hardship for the citizens. The costs for infrastructure replacements or upgrades averaged \$6.6 million and total \$326 million for all forty-nine of the studied community water systems. For rural areas, the total cost would be approximately \$550 million.

Enclosed with this letter you will find a sample letter of support, a fact sheet of information, and a map of the Sole Source Aquifer. If you need additional information, call Jill Van Voorhis at 330-312-6152, e-mail Freida Schott at fresch.don@gmail.com, or visit our web site at www.cleanwaterohio.org.

Please send your letter of support for the Tuscarawas River Buried Valley Combined Sole Source Aquifer Petition to TRBVWC, 6089 Indian Run Ave. SE, Waynesburg, Ohio 44688.

SAVE OUR WATER

PROTECT OUR AQUIFER

SAMPLE LETTER

(ORGANIZATION LETTERHEAD)

(Date)

U.S. Environmental Protection Agency
Region V
William Spaulding
Groundwater Protection Branch
77 West Jackson Boulevard (WG-15J)
Chicago, Illinois 60604

Dear Mr. Spaulding,

This letter is written in support of the Sole Source Aquifer designation for portions of the Tuscarawas Watershed known as the Tuscarawas River Buried Valley Combined Sole Source Aquifer.

(Name or Organization) understand that it is important to protect our groundwater resources and that this aquifer is vital to the health and economy of the region. The contamination of the aquifer would cause extreme hardship to the citizens of *(County, City, Village, or Township)*. An adverse economic impact would be realized by the necessity to obtain alternative sources of water supply and the cleanup of the contamination.

(Name or Organization) support the designation of the combined sand and gravel/sandstone bedrock aquifer known as the Tuscarawas River Buried Valley Combined Sole Source Aquifer in portions of thirteen counties in northeastern Ohio as a Sole Source Aquifer under the provisions of the Safe Drinking Water Act.

Sincerely,

(Signatures and Titles)

NOTE: *If you prefer to approve a resolution, a sample resolution supporting the Sole Source*

Please send your letter supporting the SSA to:

**TRBVWC
6089 Indian Run Ave. SE
Waynesburg, Ohio 44688**

Tuscarawas River Buried Valley Watershed Council **TRBVWC**

Protect Groundwater Resources in the Tuscarawas River Valley Watershed

Under a grant from Ohio EPA, the Tuscarawas River Buried Valley Watershed Council has put together a 6-volume petition to make portions of the Tuscarawas River Watershed a sole source aquifer. The next step is to send the Petition to USEPA for endorsement.

We would like a resolution or letter of support from you to send with the Petition.

Facts About the Tuscarawas River Buried Valley Combined Sole Source Aquifer (SSA map enclosed)

- Underlies portions of 13 counties
- 103 townships
- Encompasses 1,445 square miles
- 692,851 people (95% of the population) use groundwater from the sole source aquifer
- **107,000,000** gallons of water from wells are used each **DAY**
- Sole source aquifer includes 550 public water systems plus private wells, industry, and agriculture
- Public water system wells are approximately 65 to 200 feet deep
- Sole source aquifer includes all major sand and gravel deposits
- Sole source aquifer includes prolific portions of sandstone bedrock aquifers
- Sole source aquifer includes recharge areas (buffers) for sand and gravel deposits

Why Having a Sole Source Aquifer is Important

- Provides an additional review of Federal funding to insure that funds do not impact groundwater resources, i.e. Federal Highway Administration funds
- Establishes a value for the water supply that can be used as an "insurance policy" in case of future contamination
- SSA areas identified in approved Watershed plans can result in EXTRA USDA cost-share funding to farmers for conservation practices in the protected area
- Provides an educational opportunity to increase public awareness on the importance of groundwater protection
- Provides a template for local planning & zoning for groundwater protection
- Helps protect groundwater for future water supply

Other Sole Source Aquifers in Ohio

- 5 currently designated in Ohio, parts of 20 counties
- Largest and most prolific is the Miami Valley Buried Sole Source Aquifer
- The Tuscarawas River Buried Valley Combined Sole Source Aquifer would be the second largest in the state.

How Can You Help?

- Acknowledge the importance of clean groundwater resources to our area and the economy
- Write a letter supporting the SSA designation (sample letter enclosed)
- Adopt a resolution supporting the SSA designation (sample resolution enclosed)
- If you need more information, call Jill VanVoorhis at (330) 312-6152, e-mail Freida Schott at fresch.don@gmail.com, or visit our web site at www.watersourcetusc.org.

Please send your letter and/or resolution supporting the SSA to

Richard Regula

May 30, 2013

U.S. Environmental Protection Agency
Region V
Bill Ryan, Groundwater Protection Branch
77 West Jackson Boulevard (WG-15J)
Chicago, Illinois 60604

Dear Mr. Ryan:

We are writing this letter in support of Sole Source Aquifer designation for portions of the Tuscarawas River Basin, including the Tuscarawas River Buried Valley Combined Aquifer.

We feel it is important to protect our groundwater resources and realize how vital this aquifer is to the health and economy of the region. Contamination of the aquifer would cause extreme hardship to the citizens of Stark County, whose health and safety is our utmost priority. Adverse economic impact would be realized by the necessity to obtain alternative sources of water supply and the clean up of the contamination.

In closing, we once again reiterate our support for the designation of the combined sand and gravel/sandstone bedrock aquifer know as the Tuscarawas River Buried Valley Combined Sole Source Aquifer as a Sole Source Aquifer under the provisions of the Safe Drinking Water Act.

Sincerely,

Thomas M. Bernabei – President

Janet Weir Creighton – Vice President

Richard Regula – Member

Map of Mid-Atlantic Sole Source Aquifers

The Sole Source Aquifer (SSA) Program, which is authorized by Section 1424(e) of the [Safe Drinking Water Act](#), allows communities to petition the US Environmental Protection Agency for protection when a community is dependent on a single source of drinking water and there is no possibility of a replacement water supply to be found. EPA regional offices review the petitions and, if merited, the Regional Administrator will designate an area as a Sole Source Aquifer. The SSA program provides federal overview of federally-funded projects within the designated area. Projects and land uses which are not federally-funded are not subject to federal overview.

EPA defines a sole or principal source aquifer as one which supplies at least 50% of the drinking water consumed in the area overlying the aquifer. EPA guidelines also stipulate that these areas can have no alternative drinking water source(s) which would physically, legally, and economically supply all those who depend upon the aquifer for drinking water. Usage data and other technical and administrative information are required for assessing designation criteria. In general, the designation decision process takes a minimum of 6 months from the time that the petitioner submits a completed petition to EPA.

SSA designations increase the public's awareness on the nature and value of local ground water resources by demonstrating the link between an aquifer and a community's drinking water supply. Often the realization that an area's drinking water originates from a vulnerable underground supply can lead to an increased willingness to protect it. The public also has an opportunity to participate in the SSA designation process by providing written comments to EPA or by participating in an EPA sponsored public hearing prior to the designation decision.

Although designation aquifers have been determined to be the "sole or principal" source of drinking water for an area, this does not imply that they are more or less valuable or vulnerable to contamination than other aquifers which have not been designated by EPA. Many valuable and sensitive aquifers have not been designated simply because nobody has petitioned EPA for such status or because they did not qualify for designation due to drinking water consumption patterns over the entire aquifer area. Furthermore, ground water value and vulnerability can vary considerably both between and within designated aquifers.

You're the best! Sure you don't want to stay?

>>> Lisa Michalek 5/30/2013 10:58 AM >>>
Not a problem :) The other one is in your box for review.

>>> Brant Luther 5/30/2013 10:57 AM >>>

Lisa,
Would you be able to draft a letter of support regarding this as well (there are templates attached)? I hate to dump 2 things on you on one day, but I'm drowning over here. I'll review it when you're done. If it has to wait till next week, that's fine.

Thanks so very much,
Brant

Richard Regula
Stark County Commissioner

I sending you several attachments concerning the Tuscarawas River Buried Valley Combined Sole Source Aquifer Project. Please share the information with the Stark County Commissioners.

The Tuscarawas River Buried Valley Watershed Council (TRBVWC) is a non-profit organization that was formed to petition the EPA for Sole Source Aquifer status for the combined aquifer. The proposed Tuscarawas River Buried Valley Combined Sole Source Aquifer encompasses 1,445 square miles and underlies portions of thirteen northeastern Ohio counties. Designation of the proposed sole source aquifer is critical because approximately 692,851 people or about 95% of the residents, businesses, public water systems, and rural homes on private wells rely exclusively on the Tuscarawas River Buried Combined Aquifer System to meet their drinking water demands.

٤ ٥ ٦

The results of the economic analyses indicate that less than one third of the communities currently supplied by the largest 49 public water systems could feasibly find a switch to an alternative water supply without causing extreme financial hardship for the citizens. The costs for Infrastructure replacements or upgrades averaged \$6.6 million and total \$326 million for all forty-nine of the studied community water systems. For rural areas, the total cost would be approximately \$550 million. After the EPA approves the SSA Petition, all the information concerning the Tuscarawas River Buried Valley Combined Sole Source Aquifer and the mapping Geographic Information Systems (GIS) data layers will be made available to local governments and the general public. The TRBVWC would appreciate a letter and/or resolution of support from the Stark County Commissioners for the Tuscarawas River Buried Valley Combined Sole Source Aquifer Petition. The written support may be sent to me at 2280 Broadway Ave. NE, East Canton, Ohio 44730.

I appreciate your assistance with this important project. If you need more information, please call me at 330-488-1334 or e-mail djm7@sbcglobal.net (<http://us.mc1813.mail.yahoo.com/mc/compose?to=djm7@sbcglobal.net>).

Sincerely,

Donna J. Middaugh Ph.D.
TRBVWC Secretary

SAMPLE RESOLUTION

RESOLUTION SUPPORTING SOLE SOURCE AQUIFER DESIGNATION FOR PORTIONS OF THE TUSCARAWAS RIVER BASIN INCLUDING THE TUSCARAWAS RIVER BURIED VALLEY COMBINED AQUIFER

BE IT RESOLVED that _____ (Organization) _____ County, Ohio supports the designation of the combined sand and gravel/sandstone bedrock aquifer known as the Tuscarawas River Buried Valley Combined Sole Source Aquifer in portions of 13 counties in northeastern Ohio as a Sole Source Aquifer under the provisions of the Safe Drinking Water Act.

WHEREAS _____ (Organization) obtains all of its water supply from wells, and

WHEREAS contamination of the aquifer supplying said wells would cause extreme hardship to the citizens of _____, and

WHEREAS alternative sources of water supply are considerably more expensive than continued use of the existing water supply aquifer, and

WHEREAS a petition has been prepared for the Tuscarawas River Buried Valley Combined Aquifer System by the Tuscarawas River Buried Valley Watershed Council as a basis for requesting designation as a sole source under the provisions of Section 1424e of the Safe Drinking Water Act of 1974 P.L. 93-523, and

WHEREAS the Sole Source Aquifer program administered by the U.S. Environmental Protection Agency offers a means to protect said aquifer from potential pollution.

THEREFORE BE IT RESOLVED that _____ (Organization) supports the designation of the combined sand and gravel/sandstone bedrock aquifer know as the Tuscarawas River Buried Valley Combined Sole Source Aquifer in portions of 13 counties in northeastern Ohio as a Sole Source Aquifer under the provisions of the Safe Drinking Water Act.

(Organization Signatures)

Tuscarawas River Buried Valley Combined Sole Source Aquifer Summary

May 1, 2013

The Tuscarawas River Buried Valley Watershed Council members received the Ohio Environmental Protection Agency Community Benefit Fund Grant of \$130,000 to complete the technical support for the Sole Source Aquifer Petition Application to the Federal EPA for the Tuscarawas Watershed. The funding for this petition is from an Ohio EPA grant to the Watershed Council from the local funding derived from the 2009 fine against Countywide Landfill in Stark County. The Tuscarawas River Buried Valley Watershed Council (TRBVWC) is a grassroots, non-profit 501 (C)(3) organization that was formed in 2004 to specifically petition for the Sole Source Aquifer status for the combined aquifer. The TRBVWC members are concerned citizens who are dedicated to the protection and preservation of this critical resource for future generations.

The Ohio EPA grant provided most of the funds needed to hire Bennett & Williams Environmental Consultants, Inc. to review the technical information and prepare the Sole Source Aquifer Petition. The TRBVWC members have worked for almost 10 years as unpaid volunteers to coordinate the SSA Petition project and to raise the additional funds needed to complete the project. The Bennett & Williams Consultants supported the process by performing over \$38,000 in services without payment and many more unpaid volunteer hours helping TRBVWC members with the SSA Petition project.

The proposed Tuscarawas River Buried Valley Combined Sole Source Aquifer encompasses 1,445 square miles and underlies portions of thirteen northeastern Ohio counties: Belmont, Carroll, Columbiana, Coshocton, Guernsey, Harrison, Homes, Medina, Portage, Stark, Summit, Tuscarawas, and Wayne. The combined aquifer system is comprised of sandstone, bedrock and unconsolidated sand and gravel deposits that fill incised buried river valleys. Critical recharge areas are also included in the form of buffers. Buffer thickness approved in the two Great Miami-Mad River Buried Valley Sole Source Aquifer Petitions were modified and reduced to take into consideration the hillier topography of this portion of the state.

All necessary information needed to delineate the boundaries of this proposed sole source aquifer system and the supporting buffers have been derived from publically available documents and information developed by the U.S. Geological Survey, the Ohio Department of Natural Resources, and reports submitted and approved by the Ohio EPA. These documents

have been extensively peer reviewed and are considered to be accepted information available for the watershed. Most of these documents and maps are publically available on the web and can be easily downloaded and reviewed by anyone wishing further information. The petition contains reproductions of critical geologic and hydrogeologic information and water quality in the aquifer.

Designation of the proposed sole source aquifer is critical because approximately 692,851 people or about 95% of the residents, businesses, public water systems, and rural homes on private wells rely exclusively on the Tuscarawas River Buried Combined Aquifer System to meet their drinking water demands. Additional groundwater users include irrigation supplies for agriculture and other commercial, recreational and industrial uses. It is estimated that 107,000,000 gallons of water are used every day by the residents and businesses in the sole source aquifer region. The petition contains available well logs for many of the public water supplies and information on groundwater withdrawal by major groundwater users.

Only limited surface water intakes or purchased drinking water transmission lines are currently in place within the proposed sole source aquifer area. This is due to the ubiquitous presence of the Tuscarawas River Buried Valley Combined Sole Source Aquifer System, the geographic separation of the communities from each other, the limited number of surface water resources, and the expense to construct surface water treatment facilities and extensive drinking water transmission lines.

If the Tuscarawas River Buried Valley Combined Sole Source Aquifer is no longer a viable source of drinking water due to contamination, replacement drinking water will have to be obtained from surface water sources or piped in from groundwater sources outside the Tuscarawas River Buried Valley Combined Sole Source Aquifer. The economic feasibility of transferring to an alternative resource was based on the 2010 U.S. Census data for population and mean household income, civil engineering project design, estimated project costs, and estimated water demands of the municipalities within the proposed sole source aquifer area.

The underlying assumption of the feasibility analysis approach taken in this petition is that if the population centers where the greatest financial potential exists cannot feasibly afford to transfer to an alternative supply, the smaller public systems and private users of the Tuscarawas River Buried Valley Combined Sole Source Aquifer System would not be able to afford a drinking water source transfer either. Thus, for purposes of determining economic feasibility, the costs for replacing the 49 largest public water systems which represent 98 percent of the population using groundwater supplied by community public water systems were determined.

The economic feasibility analysis is conservative. Engineering analyses established the most economical project designs and project costs for transferring each of the municipalities to an alternate drinking water resource. The project designs and costs were simplified and represent basic construction elements. In all likelihood, the total project requirements and costs would be considerably more than the estimates presented in this petition. The available funding from the area residents is assumed to be the maximum of 0.6 percent of the reported income, as defined

by the USEPA Petition Guidance Document. Construction loans were assumed to be granted at zero percent interest.

The results of the economic analyses indicate that less than one third of the communities currently supplied by the largest 49 public water systems could feasibly find a switch to an alternative water supply without causing extreme financial hardship for the citizens. The costs for infrastructure replacements or upgrades averaged \$6.6 million and total \$326 million for all forty-nine of the studied community water systems. The estimated debt repayment schedules averaged 27.3 years. For rural areas, the total cost would be approximately \$550 million, with a payback time period of over 15 years. Detailed estimates for each of these systems are included in the petition.

The requested Sole Source Aquifer designation for this identified portion of the Tuscarawas River Buried Valley Combined Aquifer System is supported by a thorough examination of the geology, hydrogeology, and economic feasibility performed as part of the petition research. The proposed boundaries are based on defensible delineations of the groundwater divides, the physical extent of the aquifer system, the surface water drainage basins, and the regional economies. The Tuscarawas River Buried Valley Combined Aquifer System is a well defined, valuable resource that represents the sole source of drinking water for most of the region's residents and could not be replaced without imposing significant financial difficulties for the drinking water users.

The TRBVWC members are contacting public officials in the Tuscarawas watershed to obtain letters and resolutions of support for the Tuscarawas River Buried Valley Combined Sole Source Aquifer Petition. Over the next several months, the members will complete and file the SSA Petition with the EPA. The TRBVWC hopes that the EPA accepts the Tuscarawas River Buried Valley Combined Sole Source Aquifer Petition.

The very act of creating this SSA petition helps local communities understand what their other water options are and just how expensive it would be if they had to develop other sources. It also creates a "value" for the resource because costs have been established for replacement options. This information will be used, not only to petition the designation, but to support an ongoing educational outreach effort to preserve and protect the waters of the watershed. Designation now will help local units of government to incorporate protection of this critical resource through source water protection plans, watershed protection plans, and overlay zoning protection efforts.

After the EPA approves the SSA Petition, all the information concerning the Tuscarawas River Buried Valley Combined Sole Source Aquifer will be made available to local governments and the general public. The SSA Petition information and all of the mapping Geographic Information Systems (GIS) data layers will be housed at the Muskingum Watershed Conservancy District who has agreed to make the information available to the general public and to supply GIS support to all the local units of government and residents in the Tuscarawas watershed.

Petitioning for the Tuscarawas River Combined Sole Source Aquifer

Presented by: The Tuscarawas River Buried Valley Watershed Council

Today's Topics

- **Who we are**
- **What is a Sole Source Aquifer?**
- **Why is it important for the area?**
- **What is needed to submit a SSA Petition?**
- **Why we are asking for your endorsement?**

The Tuscarawas River Buried Valley Watershed Council

- **First began to meet February 16, 2004**
- **Incorporated January 3, 2005 and granted 501(C)(3) status**
- **Eleven Board members**
- **Consists of members from Tri-County Protect Our Water Coalition, Citizen's Against American Landfill Expansion, Club 3000 and concerned citizens**
- **Opportunity to protect water resources long term by establishing a Sole Source Aquifer (SSA)**

What is a Sole Source Aquifer?

- **Designated in the Federal Safe Drinking Water Act, 1986 & 1996 Amendments**
- **Certified by US EPA**
- **Eligible where groundwater provides more than 50% of the water in the designated region**
- **Less expensive to protect a groundwater resource than to clean it up after it is already contaminated**
- **Replacing a wellfield can cost a local community hundreds of thousands of dollars**

Why Having a Sole Source Aquifer is Important

- **Provides an additional review of Federal funding to insure that funds do not impact groundwater resources, i.e. Federal Highway Administration funds**
- **Establishes a value for the water supply that can be used as an "insurance policy" in case of future contamination**
- **SSA areas identified in approved Watershed plans can result in EXTRA USDA cost-share funding to farmers for conservation practices in the protected area**
- **Provides an educational opportunity to increase public awareness on the importance of groundwater protection**
- **Provides a template for local planning & zoning for groundwater protection**
- **Helps protect groundwater for future water supply**

Sole Source Aquifers in Ohio

- 5 currently designated in Ohio, parts of 20 counties
- Ohio has more than any other state in US EPA Region V
- This one will place portions of 13 more counties under protection

Delineation of the Tuscarawas River Combined Sole Source Aquifer

Facts About the SSA

- Underlies portions of 13 counties
- 103 townships
- Encompasses 1,445 square miles
- 692,851 people (95%) use groundwater from the SSA
- 107,000,000 gallons used each DAY
- 550 public water systems plus private wells, industry, and agriculture

Buried Valley Deposits, Sandstone Bedrocks and Recharge

The sample section shows wells drilled in the sand and gravel buried valley deposits and the lower sandstone bedrock area of the Sole Source Aquifer.

More Facts About the SSA

- **Public water system wells approximately 65 to 200 feet deep**
- **Includes all major sand and gravel deposits**
- **Includes prolific portions of sandstone bedrock aquifers**
- **Includes recharge areas (buffers) for sand and gravel deposits**

Activities to Date

- **Organization of the Tuscarawas River Buried Valley Watershed Council (2004)**
- **Preliminary Existing Conditions Investigations by USGS funded by Stark-Tuscarawas-Wayne Joint Solid Waste Management District (USGS Scientific Investigations Report 2010-5010)**
- **Delineation of the Sole Source Aquifer and Preparation of the Petition**
- **Award of Petition Application grant from Ohio EPA as a result of the Countywide Solid Waste Landfill Settlement (2010)**
- **Contracted with Bennett & Williams Environmental Consultants to delineate sole source aquifer**
- **Petition prepared and ready for submission**

How Does the SSA Process Work?

- **Delineate the SSA area**
- **Determine existing water sources for communities**
- **Identify replacement water sources**
- **Provide costs for replacement of water**
- **If more cost effective to protect resources, then eligible to submit Petition for SSA**
- **Start public education and outreach efforts to garner letters of public support**

How Can You Help?

- **Acknowledge the importance of clean groundwater resources to our area and the economy**
- **Write a letter supporting the SSA designation**
- **Adopt a resolution supporting the SSA designation**

RECORD OF RESOLUTIONS

City of Canal Fulton, Inc., Form No. 30245

Resolution No.

18-14

Passed

20

A RESOLUTION BY THE COUNCIL OF THE CITY OF CANAL FULTON, OHIO TO ENTER INTO A CONTRACT WITH CCI TO DEVELOP CONSTRUCTION PLANS FOR THE ERIE AVENUE STORM SEWER EXTENSION PROJECT.

WHEREAS, The City of Canal Fulton has sought a proposal for the infrastructure improvement known as the Erie Avenue Storm Sewer Extension Project, and

WHEREAS, CCI has submitted a proposal acceptable to the City to provide the services needed to develop those construction plans.

NOW THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF CANAL FULTON, OHIO, THAT:

The City of Canal Fulton agrees to enter into a contract with CCI for infrastructure improvement known as the Erie Avenue Storm Sewer Extension Project pursuant to agreement attached hereto as Exhibit "A" and incorporated by reference herein.

Richard Harbaugh, Mayor

ATTEST:

Teresa Dolan, Clerk-of-Council

I, Teresa Dolan, Clerk-of-Council of the City of Canal Fulton, Ohio, do hereby certify that this is a true and correct copy of Resolution ____-14, duly adopted by the Council of the City of Canal Fulton, on the date of _____, 2014, and that publication of the foregoing Resolution was duly made by listing same on the city's web-site and by posting true and correct copies thereof at three of the most public places in said corporation as determined by Council as follows: Canal Fulton Post Office, Canal Fulton Public Library and Canal Fulton City Hall each for a period of fifteen days, commencing on the _____ day of _____, 2014.

RECORD OF ORDINANCES

Dayton Legal Blank, Inc.

Form No. 30043

Ordinance No. 17-14

Passed _____, 20____

AN ORDINANCE AMENDING ORDINANCE 14-13, RATES OF PAY FOR SAFETY FORCES PART-TIME EMPLOYEES, AND REPEALING ANY ORDINANCES IN CONFLICT THEREWITH.

WHEREAS, the Canal Fulton City Council has established rates of pay for part-time employees, and

WHEREAS, the Canal Fulton City Council acknowledges the practice of amending hourly firefighter and EMT pay rates only in coordination with Lawrence Township Trustees, and

WHEREAS, adjustments are to be made to their pay, and

NOW, THEREFORE, BE IT ORDAINED BY THE COUNCIL OF THE CITY OF CANAL FULTON, STATE OF OHIO, THAT:

Section 1: Rates of pay of safety forces part-time employees shall be established as follows:

FIRE DEPARTMENT OFFICERS PER YEAR

Chief	\$20,000.00
(no additional call-back or other pay)	
Assistant Chief	\$9,991.00
Captain (Maximum of 2)	\$6,828.90
Lieutenant (Maximum of 3)	\$3,361.92

FIRE DEPARTMENT HOURLY RATE
YEAR 1 YEAR 2 YEAR 3

Administrative Assistant	\$11.56	\$12.38	\$13.00
Paramedic/Firefighter	\$13.36		
EMT-Advanced/Firefighter	\$12.27		
EMT-Basic/Firefighter	\$11.18		
Non-EMT Firefighter	\$10.25		
Orientation / Probationary	Minimum Wage		
Officer-in-Charge	\$0.50 per hour additional		
Fire Inspector	\$12.61 or the employees		
	hourly rate based upon EMT		
	certification level, which		
	ever is greater.		

FIRE DEPARTMENT HOLIDAY PAY

Employees who provide joint staffing for medical and fire services shall receive holiday pay at one and one-half of their regular rate of payment for the following days:

- A. New Years Day
- B. Memorial Day
- C. Independence Day
- D. Labor Day
- E. Thanksgiving Day
- F. Christmas Day

Mr. Mark Cozy
City Manager
City of Canal Fulton
155 East Market Street, Suite A
Canal Fulton, Ohio 44614

Subject: Proposed Amendment to Professional Engineering Services Contract
Locust Street Widening Added to Sanitary Sewer and Waterline
CTI Proposal No. EP14047, Project No. E14010

Dear Mr. Cozy:

CTI is pleased that the City of Canal Fulton has requested our proposal to provide professional engineering services for the design and plan preparation for an extension of the three-lane pavement on Locust Street. The widening will be on the north side, starting approximately 450 feet east of Etheridge Blvd., and extends for a length of approximately 1,350 feet to where the corporation limit turns northerly. This design will supplement the design already in progress for the sanitary sewer and waterline extensions, which continue easterly to the corporation limit. Curb inlets, storm sewers, and sidewalks on both sides of Locust will be included in the design, as will an extension of the storm culvert on the north side, and easements over the culvert.

CTI proposes to perform the above tasks outlined in the attached Scope of Services within sixty (60) days for a total additional fee not to exceed Twenty-Eight Thousand Dollars (\$28,000.00). Invoices will be submitted monthly to the City based on actual costs.

If this proposed scope and fee is acceptable to you, we will prepare a contract amendment for your signature. Please contact us if you have any questions or require further information.

Very truly yours,

CTI Engineers, Inc.

Richard W. Reed, P.E.
Vice President

David L. Koontz, P.E.
Project Manager

Enclosures

APPENDIX B-2
SCOPE OF SERVICES AMENDMENT

This scope describes the professional engineering services of design and plan preparation for extensions of the curbed, three-lane pavement on Locust Street. The project limits start east of Etheridge Blvd., and extend for a length of approximately 1,350 feet of roadway widening easterly to where the corporation limit extends northerly. This design will supplement the design already in progress for the sanitary sewer and waterline extensions, which continue easterly to the corporation limit. Curb inlets, storm sewers, and sidewalks will be included in the design.

A. Design Phase Services of CTI Engineers, Inc. (CTI)

1. Perform survey of topography and property for the project, for a length of approximately 1,000 feet on the north side of the street.
2. Perform subsurface geotechnical investigation (4 soil borings at 10' deep and 1 boring at 32' deep) and testing as required to determine the characteristics of the subgrade soil relative to the design of the proposed roadway. Traffic maintenance for the drilling is included in this proposal.
3. Prepare construction drawings for approximately 1,350 linear feet of roadway widening construction on the north side of Locust Street. The widened roadway will include combination curb-and-gutter and storm sewers on both north and south sides of the road, connected to existing drainage facilities at the west end of the project.
4. Perform design and prepare plans for the grading/filling on both the north and south sides as required for the roadway widening, curb and gutter, and sidewalks. Prepare cross-sections to show the grading for the proposed work.
5. Perform design and prepare plans for the extension of the storm culvert on the north side of Locust St., and prepare cross-sections to show the grading over the proposed culvert extension and near the south end of the culvert.
6. Develop typical sections for the roadway widening.
7. Prepare a Traffic Control Plan for the pavement markings and signs.
8. Include the widening work in the Storm Water Pollution Prevention Plan, submittal to Stark Soil & Water, and the Ohio EPA Notice-of-Intent (NOI) application for storm water discharge permit.
9. The roadway widening improvements will be shown on the sewer and waterline plans, prepared on 22" x 34" sheets showing both the plan view at 1"= 50' scale and a profile view at 1"= 5' vertical scale. The roadway improvement drawing sheets will also include General Notes and Details.

10. The State of Ohio Department of Transportation (ODOT) Location and Design (L&D) Manuals, Construction and Material Specifications (C&MS), and standard details will be used on the project.
11. Prepare technical specifications or plan notes for any items not covered by ODOT C&MS.
12. Coordinate with utility companies for relocation of their poles or underground facilities, as required for construction of the improvements.
13. Prepare easements for construction (temporary) and slope (permanent) along the north and south sides of Locust Street, as needed to construct and maintain the grading improvements in the vicinity of the culvert.
14. Include the widening work in the probable cost of construction, bid sheet, and technical specifications for the project.

B. Responsibilities of City of Canal Fulton (CLIENT)

1. Provide all criteria and full information as to its requirements for the project.
2. Upon identification by CTI and approval by the CLIENT of the necessity and scope of information required, furnish CTI all data, reports, surveys, and other materials required for this project, except those included in CTI's Scope of Services.
3. Provide access to the project site and make all provisions for CTI to enter upon public and private lands as required for CTI to perform its services under this Agreement.
4. Give prompt written notice to CTI whenever the CLIENT observes or otherwise becomes aware of any defect in the project.
5. Furnish to CTI, prior to execution of this Agreement, a copy of any design and construction standards the CLIENT shall require CTI to follow in performing its services under this Agreement.
6. Provide payment for plan review, or other fees required by the Ohio EPA, or other reviewing agencies.

C. Additional Services

The following services are not included in the above Scope of Services, but are available to the CLIENT from CTI as additional services subject to additional compensation:

1. Wetlands delineations or determinations or other permits that may be required by the Army Corps of Engineers or other regulating agencies.
2. Services during bidding and construction.
3. Assistance with calculation of special assessments.

RECORD OF ORDINANCES

Ordinance No. 1814

Passed _____, 20____

An Ordinance Amending Ordinance 31-13, and Providing for Changes to Previously Authorized Appropriations.

WHEREAS, the City has authorized Risinger & Associates, Inc. to complete a feasibility study for developing a Recreation and Community Center, and

NOW, THEREFORE, BE IT ORDAINED BY THE COUNCIL OF THE CITY OF CANAL FULTON, OHIO, THAT:

Section 1: Council authorizes an appropriation increase in the General Fund by a total of \$105,000.00 to cover the cost of the feasibility study. The following appropriation increase will be paid from the carryover fund balance.

Expense Account	Account Description	Appropriation Change
101.120.5410	Mayor/Administration - Contracted Services	\$105,000.00

Section 2: This Ordinance shall take effect and be in full force and effect from and after the earliest period allowed by law.

Richard Harbaugh, Mayor
